

3.0 REQUIREMENT ACKNOWLEDGEMENT FORM

I have read and understand the description in the Le Moyne College Catalog of the 3.0 requirement for participation in the bachelor's + master's dual-degree engineering partnership with the College of Engineering and Computer Science at Syracuse University. This requirement states in part:

"Students who successfully complete their Le Moyne bachelor's degree program with a concentration in pre-engineering with both an overall 3.0 G.P.A. and a 3.0 G.P.A. in their science, mathematics and engineering courses, are eligible for pre-admission into the appropriate master's degree program at Syracuse University and a 50 percent waiver on their master's degree tuition, subject to the terms of the agreement with Syracuse University. The master's degree will typically be completed in an additional three semesters after graduation from Le Moyne.

"Permission to register for courses at Syracuse University required by the individual pre-engineering degree concentrations is at the discretion of the director of pre-engineering programs, and will be contingent upon satisfactory academic performance. Students must have both a 3.0 G.P.A. in all mathematics, science and engineering courses, and a 3.0 G.P.A. overall, through the end of the semester prior to the semester in which registration takes place, in order to be permitted to register for engineering courses at Syracuse University for a given term. In addition, students must successfully maintain both 3.0 averages through the end of the term prior to the term in which the course(s) at Syracuse University are to be taken in order to be permitted to maintain that registration and take the course(s). Exceptions may be granted at the discretion of the program director."

I understand that this requirement means that I must maintain a 3.0 G.P.A. both overall, and in all my math, science, and engineering courses, in order to be permitted to continue in the pre-engineering partnership, at the discretion of the Director of Pre-Engineering Programs. I understand that if I do not maintain this minimum required G.P.A. I may not be permitted to register for required engineering courses at Syracuse University, and/or that existing registrations may be cancelled. I also understand that if my registration for Syracuse University engineering courses has been blocked because my grades do not meet partnership requirements, I must first increase my G.P.A.'s to the required 3.0 level before I may continue with these courses.
