

## Carmen J. Giunta

Le Moyne College  
Department of Chemistry  
1419 Salt Springs Road  
Syracuse, NY 13214-1399  
giunta@lemoyne.edu

### EDUCATION

**Ph.D., Harvard University**, Chemical Physics (1989).  
**M.A., Harvard University**, Physics (1984).  
**B.S., University of Scranton**, Chemistry, *summa cum laude* with honors (1982).

### RESEARCH AND TEACHING EXPERIENCE

**Le Moyne College**, Department of Chemistry, Syracuse, NY (1990-)  
**Professor Emeritus** (2019-)  
**Professor** (2004-2019) and **Chair** (2014-2017)  
**Associate Professor** (1996-2004) and **Chair** (1998-2003)  
**Assistant Professor** (1990-1996)

Courses: physical chemistry; introductory chemistry; “Energy and Environment” and “Scientific Thought” for non-science majors. Research interests: history of chemistry, including applications to chemistry education; kinetic modeling of chemical vapor deposition. Created and maintain “Classic Chemistry” website on history of chemistry (<http://web.lemoyne.edu/giunta/>).

**Harvard University**, Department of Chemistry, Cambridge, MA (1989-1990)  
**Post-Doctoral Research Fellow** with Prof. Roy G. Gordon

Kinetic modeling studies of the chemical vapor deposition (CVD) of undoped and fluorine-doped tin oxide films from organotin compounds and O<sub>2</sub>. Methodology is applicable to other CVD systems and to atmospheric and combustion chemistry.

**Harvard University**, Department of Chemistry, Cambridge, MA  
**Graduate Research Assistant** to Prof. Roy G. Gordon (1985-1989)

Dissertation title: *Detailed kinetic modeling of the chemical vapor deposition of silicon dioxide and tin oxide films*. Computer modeling of two-dimensional reaction-diffusion with critical evaluation of available thermochemical and kinetic parameters, addressing fundamental questions of chemical mechanism as well as practical relationships of deposition rates to process control parameters.

**Teaching Fellow**

Fundamentals of Physics and Chemistry (Integrated introductory course with classroom instruction by section leaders) with Profs. Roy G. Gordon, Daniel Goroff, Dudley R. Herschbach, and David Layzer (1989-1990); Physical chemistry (Undergraduate quantum mechanics), under Prof. William Klemperer (1988); Graduate level statistical mechanics, under Prof. Roy Gordon (1985); General chemistry (summer school), under Dr. Ronald E. Vanelli (1983).

**GTE Laboratories**, Waltham, MA (1981, 1982)

**Student Research Assistant** to Dr. Leonard J. Andrews

**University of Scranton**, Department of Chemistry, Scranton, PA (1981-1982)

**Undergraduate Honors Thesis Research**; mentor: Prof. Robert A. Sallavanti

Undergraduate thesis title: *Computer programs for equilibrium calculations on polybasic acids and mixtures of acids.*

**AWARDS**

**Fellow of the Division of Chemistry of the American Chemical Society 2022.**

**Friend of Gender & Women's Studies Award 2020** from the Gender & Women's Studies program of Le Moyne College.

**Paul R. Jones Outstanding Paper Award 2017** from the ACS Division of the History of Chemistry for "the best paper published in the *Bulletin for the History of Chemistry*" in 2015 to 2017.

**Syracuse Section Award 2008** from the Syracuse Section of ACS "in recognition of his outstanding contributions in promoting the advancement of chemistry."

**ACS Divisional Activities Committee:** funding for organizing symposium, "The Rise and Fall of Chlorofluorocarbons," at 229th ACS National Meeting, March 2005.

**Camille and Henry Dreyfus Foundation** Special Grant Program in the Chemical Sciences: proposal to write "Quantitative exercises based on classic chemistry papers" funded in 2002.

**Norman Hackerman Young Author Award** from the Electrochemical Society for the best paper published by a young author in Solid-State Science and Technology in the society's Journal in 1990.

**Supercomputer Grant**, National Center for Supercomputing Applications (1989-1990). Grant of 15 service units on a Cray X-MP/48 to pursue kinetic modeling of fluorine-doped tin oxide films.

**National Science Foundation Graduate Fellowship** (1982-1985). Grant of tuition and stipend funds for graduate studies, awarded on the basis of academic merit.

**SCHOLARLY APPOINTMENTS**

*Bulletin for the History of Chemistry*, Editor (2011-)

Associate Editor (2004-2010)

*Foundations of Chemistry*, Coordinating Editor (for history of chemistry), (2001-2008)

**PROFESSIONAL AND HONORARY SOCIETIES**

American Chemical Society (1982-): active in Syracuse Section (education committee, 1993-2009, committee chair 1995-96; section treasurer 1997-2001, 2006-2009; chair elect 2005; chair 2006); Division of the History of Chemistry (alternate councilor 2002-2007; councilor 2008-2010; editor 2011-); and national committees (National Historical Chemical Landmarks, consultant 2008-2009, 2019, member 2010-2018, 2020-; Committee on Divisional Activities, associate 2008, member 2009-2010; Committee on Nomenclature, Terminology, and Symbols, associate 2008, member 2009-2019)

*Sigma Xi* (scientific research society, 1982-)

*Alpha Sigma Nu* (national Jesuit honor society, 1981-)

*Phi Lambda Upsilon* (national chemistry honor society, 1981-)

**PUBLICATIONS** (peer-reviewed only; book reviews and conference presentations are available on request)

L. J. Andrews, A. Lempicki, B. C. McCollum, C. J. Giunta, R. H. Bartram, and J. F. Dolan, "Thermal quenching of chromium photoluminescence in ordered perovskites. I. Temperature dependence of spectra and lifetimes," *Physical Review B* **34**, 2735-2740 (1986).
